

FOR IMMEDIATE RELEASE

Mayhew Tools™ is Pleased to Announce the Acquisition of the Baltimore Toolworks Product Line.

Mayhew Tools™, MA and **Baltimore Toolworks, Inc.**, MD represented by Jill B. Reamer of Peak Strategy Advisors, Inc. 13 March 2009

Mayhew Tools™, the oldest and most respected manufacturer of punches, chisels, pry bars and specialty automotive now adds the strength of the Baltimore tool Line to their programs. We will be offering the product line immediately and our intent is to make this acquisition as seamless as possible to all existing customers that were purchasing the Baltimore Toolworks line.

Included in this acquisition comes the patent pending Hard Cap™ branded line of punches, chisels, and masonry tools. We are also adding the popular line of Plumbing Tools. You will soon be able to view these complete lines on our website.

About Mayhew

In 1856, starting as a small tool house in the town of Shelburne Falls, Massachusetts the founders of Mayhew Tools dedicated themselves to the highest standards in American manufacturing of punches and chisels. Today, the company has grown to encompass a much broader product line through new product development, additional acquisitions like Old Forge™, Carica™, and now Baltimore Toolworks. However, our basic commitments to quality and standards have remained solid and unchanged. We invite you to explore our site to learn how your business can benefit from the Mayhew Tools product line.
